SUMMARY

Information Technology student at Poornima College of Engineering with a CGPA of 8.0. Skilled in Core Java, MySQL, and JDBC with hands-on experience in building full-stack projects. Currently developing a Spring Boot REST API microservice for URL shortening.

EDUCATION

B.Tech — Information Technology (2023 - Present)

Poornima College of Engineering, Jaipur | CGPA: 8.0 (up to 5th Semester)

12th (PCM) — CBSE

2023 | 72%

10th — CBSE

2021 | 90%

TECHNICAL SKILLS

Languages: Java (Core), SQL, JavaScript, HTML, CSS

Tools: Git, GitHub, Postman, IntelliJ IDEA

Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), JDBC, DBMS, Exception Handling

Soft skills: Team Collaboration, Problem-Solving, Self-Initiated Learning

Currently Learning: Spring Boot · REST API Design

PROJECTS

URL Shortener Service [Individual — In Progress]

Java · Spring Boot · MySQL · REST API

- Building a REST API service that generates short URLs and handles HTTP redirection using Java and Spring Boot
- Designed MySQL schema to store original URLs, short codes, and click count per link
- Currently implementing layered MVC architecture (Controller → Service → Repository) — project in active development

ShieldX — Tourist Safety System [Team of 6]

Android · GPS · Geo-Fencing · SMS API

GitHub: <https://github.com/Priyanka26102005/ShieldX-Tourist-Safety-System>

SIH 2025 Internal Round Cleared

- Created real-time GPS tracking and geo-fence alerts for tourists — auto-dispatches SOS SMS on boundary violation
- Collaborated in a 6-member team with task division and version tracking using Git throughout development
- Delivered working prototype under competitive deadline — cleared Smart India Hackathon 2025 internal round in a team of 6

Train Reservation System [Team of 4]

Java · MySQL · JDBC · HTML · CSS

GitHub: <https://github.com/Priyanka26102005/Train-Reservation-System>

- Built an end-to-end booking system — seat search, availability check, booking confirmation, and PNR generation
- Designed 4-table normalized MySQL schema with foreign key constraints and indexing — ~35% faster seat queries
- Implemented seat-locking logic in Java backend to prevent double-allocation under concurrent bookings
- Used JDBC parameterized queries throughout to prevent SQL injection vulnerabilities
- Developed role-based authentication with session management and an admin panel for schedule control

Personal Portfolio Website [Individual]

HTML · CSS · JavaScript

GitHub: <https://github.com/Priyanka26102005/Personal-Portfolio>

- Designed and developed a fully responsive personal portfolio website from scratch using HTML5, CSS3, and JavaScript
- Implemented mobile-first layout with smooth scroll and a live project showcase section — deployed on GitHub Pages

COMPETITIVE PROGRAMMING

- LeetCode: 35 problems solved — focus on Arrays, Strings, Linked Lists, and Sorting algorithms

CERTIFICATIONS & ACHIEVEMENTS

- Smart India Hackathon (SIH) — Cleared Internal Selection Round | 2025
